Quality Assurance

Residency Programs

Dental Team
Incentive Programs

Here are some examples of ways our Oral Health consultants may be able to assist your health center:

- Assess your current program's quality including identifying ways to reduce compliance risk.
- Develop a comprehensive quality improvement process and ongoing plan.
- Develop an effective provider privileging process to match up new dentist skills with procedures they should (or should not) be privileged to perform.
- Analyze your current policies and procedures, and help you to develop new ones.
- Conduct an operational review to help ensure an efficient and more financially sound oral health program.
- Conduct a workflow analysis to help improve efficiencies in clinical work processes.
- Recommend key metrics for continual operational and quality monitoring.
- Develop a dental compensation and incentive compensation plan.
